

TRANSIT CUSTOM

Van SWB (4972 mm)

Van LWB (5339 mm)

Compact? That's an optical illusion.

It's larger on the inside than it looks on the outside. Short wheelbase (4972 mm) models can carry items up to 3 metres long or three pallets, while long wheelbase (5339 mm) models have even more space. An integrated roof-rack is optional.

Extra loadspace.

With six cubic metres of cargo space in the short wheelbase (4972 mm) and the ability to carry standard 8 x 4 boards face down or standing, the **TRANSIT CUSTOM** is as practical as it is stylish.

Tow with confidence.

We condensed ten years of driving into a non-stop six-month test under different road conditions, most of which was spent towing a fully laden trailer. The **TRANSIT CUSTOM** passed with full marks.

Proven Duratorq diesel engine technology.

Renowned for its reliability and efficiency, the **TRANSIT CUSTOM's** 2.2-litre Duratorq TDCi engine comes with a choice of three power and torque outputs.

Engineered for durability. Tested for toughness.

Like all TRANSITS, the TRANSIT CUSTOM has durability in its DNA. A relentless testing programme ensures that it's a vehicle that lasts.

High-mounted headlights.

Powerful projector-style headlights are located safely out of harm's way. (Standard on Sport)

Multi-piece bumpers.

Smart front and rear bumpers feature a multi-piece design to help keep repair costs low.

Tested for endurance.

Extensive testing included a two-month maximum speed test and demanding low-speed city drive cycles to imitate typical unforgiving delivery schedules.

Pushed to extremes.

From frost-covered prototypes started up in -40 °C at 4 500-metre altitudes, to sun-baked vehicles towing fully laden trailers up long inclines in 50 °C heat, TRANSIT CUSTOM has been pushed to extremes.

300 000 door shuts.

We opened and closed the doors and bonnet over 300 000 times in real-world conditions to help ensure they will not let you down.

Obsessively driven.

During its development, we test drove the TRANSIT CUSTOM for hundreds of thousands of kilometres. It's a van you can rely on, right down to the smallest ball bearing.

5-year Corrosion Warranty.

The new TRANSIT CUSTOM owes its durable exterior to a thorough multi-stage painting process. From the wax-injected steel body sections to the water-based top coat, new materials and application processes ensure it is not only virtually solvent-free, but will also retain its good looks for many years to come.

For more details, please refer to warranty guide.

Zinc coating

Phosphate spray coat

Electrocoat

Water-based top coat

Clearcoat lacquer

Make your work a pleasure.

With its exceptional levels of comfort, craftsmanship and refinement, as well as a host of thoughtful features, **TRANSIT CUSTOM** is an absolute pleasure to drive.

Allergy-friendly interior.

The **TRANSIT CUSTOM**'s interior uses materials that minimise the risk of an allergic reaction. Models fitted with air-conditioning also have a high-performance pollen filter to prevent dust and pollen entering the passenger compartment.

Fully adjustable driver's seat and steering wheel.

An eight-way adjustable driver's seat with armrest, as well as a steering wheel that adjusts to suit your height and arm length, help you find your ideal driving position with ease.

10.9 m turning circle.

With its class-leading 10.9 m kerb-to-kerb turning circle, the short wheelbase (4972mm) **TRANSIT CUSTOM** is the ideal choice for demanding city work.

Torque Vectoring Control.^o

Designed to improve traction, roadholding and agility when cornering by continuously optimising the engine torque distributed to each front wheel to match the amount of grip each has available. The result is a more rewarding driving experience. (Standard)

^oUses sensors. (Refer to user manual for more details)

Making every drop of fuel count.

Ford Technology, combined with efficient aerodynamics, has resulted in outstanding fuel economy across the range.

Smart Regenerative Charging.

Saves fuel where possible by charging the battery only when you are not pressing the accelerator. (Only on Sport)

Impressive CO₂ emissions.

The new Duratorq TDCi diesel engines are remarkably fuel efficient, with combined fuel consumption from as low as 7.0 l/100 km* and CO₂ emissions of only 186 g/km.

*Ford manufacturer claim.

Shift Indicator.

Advises you when to change gear for maximum fuel efficiency. (Standard)

Power and torque.

The **TRANSIT CUSTOM's** 2.2 litre Duratorq TDCi diesel engine is available in three power and torque configurations:

- 74 kW/310 Nm
- 92 kW/350 Nm
- 114 kW/385 Nm

The transmission is a six-speed manual across the range.

A standard front-wheel-drive configuration pays dividends for you and your cargo. It reduces kerb weight, which allows a greater payload and improves fuel economy, and lowers the load floor for extra cargo space and easier access.

Lane Keeping Aid.^{Ø*}

It only takes a momentary slip in concentration to drift out of your lane when driving on the highway, with potentially serious consequences. Lane Keeping Aid is designed to detect when your vehicle strays unintentionally towards road lane markings and then alert you with vibrations through the steering wheel. (Standard on Sport) (Refer to user manual for more details)

^ØUses sensors.

*Operates at speeds over 70 km/h on multi-lane roads with clearly visible lane markings.

Trailer Sway Control.*

When it detects trailer sway, the system is designed to reduce engine torque and apply the brakes to the appropriate wheel(s) to help restore control.

(*Standard with tow bar fitted at dealer)

Traction-control System.

If wheel slip is detected at low speed, this system can distribute more torque to the wheel with most traction.

Emergency Brake Assist.^Ø

Designed to recognise an emergency braking situation and increases the pressure within the braking system to provide extra stopping power.

Emergency brake warning.

Front and rear indicators automatically flash during heavy braking, giving other drivers advanced hazard warning.

Drive-away locking.

To prevent opportunistic crime, all doors automatically lock once the vehicle speed exceeds 8 km/h. The doors remain locked even if the vehicle slows or stops, although the driver or passenger locks can be released using the interior door handles. (Can be deactivated if required)

Driver Alert.^Ø

Designed to warn you if the system detects driving behaviour that indicates a drop in alertness levels. Initially, a warning icon is displayed in the instrument cluster, followed by a warning chime if driving alertness further declines. (Standard with Lane Keeping Aid on Sport)

Electronic Stability Programme (ESP).^Ø

ESP is designed to help you maintain control in extreme driving conditions. It senses when you are deviating from your chosen line and aims to keep you on track by automatically regulating braking and engine output.

Advanced protection, inside and out.

| A full line-up of passive and active safety features make use of the latest technology to protect the driver, passengers and their belongings. |

Impressive towing ability.

With up to 1800 kg maximum towing capacity, **TRANSIT CUSTOM** offers impressive pulling power along with a range of safety features to help keep you and your trailer secure. From Hill Start Assist to Trailer Sway Control, you can tow with confidence and enjoy a safe and rewarding drive.

Tow bar not standard.
Sport model shown.

Rollover mitigation.®

Designed to identify a potentially dangerous driving situation and activate the ESP to restore stability.

Load Adaptive Control.®

Designed to adjust the responses of the ESP system to compensate when the vehicle is unladen, or partially or fully laden.

Hill Launch Assist.®

Designed to temporarily prevent you from rolling down a hill when you move your foot from the brake pedal to the accelerator pedal. It works in forward and reverse gears, so it's ideal for towing and pulling heavy loads.

Ford SYNC®.

Enjoy hands-free communication and entertainment with SYNC®. The voice-controlled system allows you to play music, make and receive hands-free calls and choose contacts from your phone's contact list with a simple voice command. It will even read your incoming text messages out for you. Delivering convenience and safety, SYNC's® voice-activation means you will be able to keep your hands on the wheel and your eyes on the road. (Standard on Sport, optional on Ambiente)

Mobile phone.

Phone book download for easy dialling and photo browsing

- Text messages read-out
- View call log
- Caller ID
- Conference calling
- Mute
- Call waiting

Audible SMS text messages.

Depending on your phone model, the SYNC® system allows SMS messages to be read to the user, via Text-to-Speech (TTS).

Bluetooth® audio streaming.

Stream your music collection from your compatible MP3 player or mobile phone to the vehicle's audio system.

Media player.

The USB port supports both audio and music information in the display with one cable. There is no need for multiple cables to be plugged into the USB or aux socket. Mobile phones and media players can be charged via the USB port.

Note: The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company Limited and its associated companies is under licence. Other trademarks and trade names are those of their respective owners.

Intelligent features that make life easier.

| There's enough to think about when you're working. That's why the **TRANSIT CUSTOM** has features that help lighten the load. |

Cruise control with Adjustable Speed Limiter.

Allows you to set a maximum speed that cannot be exceeded. (Standard on Sport, optional on Ambiente)

European model shown.

Rearview camera.

Select reverse and the image from the rear-view camera comes on automatically in the rear-view mirror. Marker lines overlaid on the camera image indicate where the vehicle is heading. (Standard on Sport)

Parking distance sensors, front and rear.

With the **TRANSIT CUSTOM**, you won't have to pass by those more challenging parking spaces. An audible warning helps you safely judge the distance between your vehicle and obstacles at the front and rear, for easier parking and manoeuvring. (Standard on Sport, optional on Ambiente)

Power folding mirrors.

Perfect for parking in tight spaces or squeezing through narrow lanes. Electronically-operated and heated, with body colour housings. (Standard on Sport)

TRANSIT CUSTOM Van bodystyles.

Available as a Van and Kombi Van, with a short wheelbase or long wheelbase, there's a van style to match your business.

Panel Van

Van L1

Van L2

- 3 seats
- Fits 3 EUR-pallets

Kombi Van

Kombi Van L1

Kombi Van L2

- 6 seats
- Fits 1 EUR-pallet

LWB Panel Van (5339 mm)

LWB Kombi Van (5339 mm)

Smart

Smart solutions for classic challenges.

Using fresh thinking and inspired design, the **TRANSIT CUSTOM** has solved many of the usual transportation issues.

Underseat storage compartment.

The front dual passenger seat cushion flips up to reveal a hidden compartment that's large enough to hold a toolbox. (Standard)

Three-metre load length with load-through bulkhead.

Even the short wheelbase (4972 mm) van can carry certain three-metre-long items, thanks to the standard flexible load-through bulkhead.

Retractable roof-rack.

Holds 130 kg of cargo and, when not in use, folds level with the roof line to improve fuel economy and reduce wind noise. (Available as an accessory)

Loadspace with bulkhead access panel and loadfloor liner.

The flip-up access panel in the bulkhead allows access to the underseat storage compartment, allowing items such as pipes and ladders up to three metres in length to be stored securely. The tough, vinyl sealed loadfloor liner provides an easily cleanable surface. (Standard on Sport)

Extra loadspace.

There's no compromise in the most vital consideration for your work: maximising your loadspace and the ease with which you can use it.

- Six cubic metres of space
- Three pallet capability
- Three-metre load length with load-through bulkhead
- Side-mounted cargo tie-down points
- Half-height hardboard lining
- Sealed loadfloor (Standard on Sport)
- Rear bumper step (Only on Sport)

or alternatively email us at fleetsa@ford.com

Ford **Protect**

Ford **Protect** offers a holistic suite of service, maintenance, warranty and roadside-assistance products aimed at keeping your new **TRANSIT CUSTOM** in perfect working condition.

New Vehicle Warranty – Every **TRANSIT CUSTOM** comes with a 4 yr/120 000 km Comprehensive Warranty.

Service Plan – **TRANSIT CUSTOM** Sport Van comes standard with a 5 yr/90 000 km Service Plan, which covers all scheduled servicing except friction materials, i.e. brake pads and wiper blades. (Service Plan optional on Ambiente model)

Corrosion Warranty – Cover lasts for 5 yr/unlimited km.

Roadside Assistance – Cover lasts for 3 yr/unlimited km for mechanical, electrical, flat tyres, batteries, medical emergencies and towing, if needed, to the nearest Ford dealership.

New Vehicle Extended Warranty – An Extended Warranty may be purchased prior to the expiry of the 4 yr/120 000 km New Vehicle Warranty, giving owners an extra 2 yr/80 000 km of worry-free driving.

Consult the vehicle handbook, Ford Dealer or www.ford.co.za for more info regarding Ford **Protect** plans.

CO₂ & Fuel Economy Note: The declared fuel consumption and CO₂ emissions figures were achieved during technical laboratory testing in accordance with the legislated technical specifications (SANS 20101: 2006 / ECE R101: 2005). Fuel consumption and CO₂ emissions figures are used to compare different vehicle types under uniform conditions and are not necessarily indicative of real-life driving conditions. Note that the actual fuel consumption and emissions levels will depend on many factors including individual driving habits, prevailing conditions and vehicle equipment, condition and use.

Quality

We design and build your Ford to feel as good after many years of service as it did the day you picked it up. And to drive just as beautifully too.

Green

Using advanced Ford technology, we're committed to creating vehicles with improved fuel economy, reduced CO₂ emissions and a lower overall cost of ownership.

Safe

Ford's Intelligent Protection System uses sophisticated technology designed to help prevent an accident and, if one should happen, to protect you.

Smart

Vehicles with smart intuitive technologies designed to connect your world and many clever solutions from Ford that make life a little easier.
